Sharing knowledge and expertise using digital tools

n°25

Context

A digital tool could store and enable the sharing of knowledge. Advisors create a great amount of information, knowledge and recommendations. Therefore, they need a space to share it with advisors with similar issues or concerns, to consult remotely and compare experiences.

Innovative solution's benefits

- Such a tool would improve advisors' decision making process
- It would create a culture of peer-to-peer learning among advisors
- Increase advisors' ability to exchange knowledge and prescriptions with farmers.

Recommendations

- Easy to upload and record information and recommendations
- Such a tool should include a possibility to share information with others advisors.
