# Enriching the services of the Mes Parcelles platform

n°39

## Context

Mes Parcelles platform is an online service offered to farmers to help them manage their farms. New services have been integrated into the Mes Parcelles platform in order to diversify the offer and to centralize it: Mes Sat'images and Decitrait. Mes Parcelles has become a central hub for these tools that already exist elsewhere.

The success of this integration process to Mes Parcelles platform will be measured by the number of farmers who will use these new services.
