Reusable and Shareable

FAIRShare aims to improve farmer engagement with digital technologies through sharing, adapting and enabling more use of digital advisory tools and services (DATS)

Practice abstract n°58

Digital Advisory Tool for certified agroforest owners

THIS PROJECT HAS BEEN FUNDED BY THE
EUROPEAN UNION HORIZON 2020 RESEARCH
AND INNOVATION PROGRAMME
GRANT AGREEMENT ID 101019150

Digital Advisory Tool for certified agroforest owners

n°58

Context

Certification is fundamental to ensuring a managed and profitable forest with less fire risk. However, certification systems involve the complex management of a lot of information, different types of data by different actors.

Innovative solution

ForestSIM® Information and Mapping System allows any national forest owner to manage his or her forest certification requirements. The online platform contains 4 main elements:

Documents

Forms

Cartography

Planning components

Using innovative technologies, this tool allows to manage information more efficiently, increase the effectiveness of support to owners to improve forest management and easily access all information online.
